

UNDER CONSTRUCTION

Cactus bridge, State Street open

Two key Route 210 connectors opened to drivers during the past three weeks, helping improve local traffic circulation in Rialto and San Bernardino.

The State Street under-crossing in San Bernardino opened on April 13. Under construction since June, the \$3.7 million bridge will offer a route for drivers to cross beneath the new freeway. State Street also will provide ramps to enter and exit the freeway, once it opens late next year.

Now that the under-crossing has opened, crews temporarily have closed State Street between Highland Avenue and Adams Street for storm drain installation. Drivers may use Macy Street as a detour.

In Rialto, the Cactus Avenue bridge over Route 210 opened on March 27. Crews started work on this \$2.2 million bridge in May.

The State Street under-crossing in San Bernardino opened to drivers April 13.

Cajon Blvd to close periodically

Widening and retrofit of the railroad bridge at Cajon Blvd in San Bernardino will require periodic street closures through late 2006.

Closures will occur on Cajon between Hancock Avenue and Medical Center Drive. During full closures, drivers can use California, Highland Avenue and Medical Center as a detour route. Flagmen will be posted in the area when full closures are not required.

I-215 section to be closed this week at night

Crews will be removing construction materials near the Interstate 215-Route 210 separation, requiring night closures on I-215 this week.

The southbound lanes will be closed the nights of April 17 and 18 from 9 p.m. to 5 a.m. between University Parkway and Mt. Vernon Avenue. The Mt. Vernon and Massachusetts on-ramps also will be closed. Drivers will be detoured to the University Pkwy exit to southbound Cajon Blvd, west to Highland Avenue, and north to the 27th/Mt. Vernon on-ramp to reconnect with the freeway.

Northbound lanes will be closed the nights of April 19 and 20, also from 9 p.m. to 5 a.m., between the Route 259 split and University Pkwy. The University Pkwy on-ramp will be closed, and the eastbound Route 30 connector to northbound I-215 also will be closed. Drivers will exit at Mt. Vernon, head north on Little Mountain Drive, head west on Kendall Drive and reenter the freeway at University Pkwy.

Dirt-hauling to continue this week

Trucks will continue to haul large loads of dirt across Highland Avenue between California Street and Route 30 in San Bernardino until the end of this week. The dirt-hauling operation will run from 7 a.m. to 3 p.m. through Friday.

Flagmen will be stationed along the haul route to control traffic, enforce safety and direct the extra-long trucks. Signs will be posted to announce possible delays.
